Ana	Ferreira	Jornalista	

Figura 2 - Tabela usando colspan

3. Crie uma página conforme Figura 3. Utilize o rowspan.

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:5500/index.html'. The page content includes a heading 'Relatório' and a table with two columns. The first column contains 'Nome Completo' and 'Telefone'. The second column contains 'Pedro', '27 9999-2222', and '27 9999-1111'. The 'Telefone' cell in the first row spans two rows, as indicated by the rowspan attribute.

Nome Completo	Pedro
Telefone	27 9999-2222
	27 9999-1111

Figura 3 - Tabela usando rowspan

4. Crie uma página conforme Figura 4. Utilize o rowspan e o colspan.

The screenshot shows a web browser window with the address bar displaying '127.0.0.1:5500/index.html'. The page content includes a heading 'Relatório' and a table with three columns. The first column contains 'Ano: 2023', 'Valores venda', and 'Descontos'. The second column contains '100.000', '200.000', and '300.000'. The 'Descontos' cell in the first row spans two rows, as indicated by the rowspan attribute. The 'Valores venda' cell in the first row spans two columns, as indicated by the colspan attribute.

Ano: 2023		
	Valores venda	
Descontos	100.000	
	200.000	
	300.000
